REVOLUTIONARY PRE-SPRAY BREAKS DOWN DIRT

To begin, we use a special spray that helps get rid of tough stains and spills safely. Our special formula not only cleans better but also makes things smell fresh and dries quickly.

ELEMINATE DIRT, ALLERGENS, STAINS, AND MORE

We remove dirt, stains, and allergens using solutions that are eco-friendly. This certification ensures that we don't leave any harmful residue behind, making it safe for your family and pets. Our process is backed by data, showing that we can eliminate an average of 95% of common household allergens from carpets.

INCREDIBLE RESULTS WITH OUR HIGHLY ADVANCED EQUIPMENT

Every task we take on involves the use of the newest cleaning methods, top-notch supplies, and cutting-edge equipment. Your job is incredibly important to us, and we don't compromise in any of these aspects. Investing in the right carpet cleaning supplies and equipment is our way of ensuring the kind of service that brings customers back year after year. Our modern cleaning methods showcase our dedication to getting the job done correctly.

Protection:

Image:

Text:

MAKE YOUR CARPET CLEANING LAST LONGER

To make your carpet cleaning last longer, we can add a protective layer that helps prevent damage from dirt and spills. It also lowers static electricity.

EXPERIENCE ENHANCED LONGEVITY

Besides guarding against dirt and spills, our carpet protector also shields against everyday wear and tear caused by activities like foot traffic and vacuuming.

ESSENTIAL FOR FAMILIES WITH KIDS AND PETS

Applying carpet protector is an excellent way to maintain the effects of each carpet cleaning, and we highly recommend it, especially for those with kids and pets.

Deodorizer:

OUR CARPET CLEANING PROCESS

Step 1: Inspection – Our cleaning expert will go around your home with you to look closely at the carpet. They'll identify any tough stains and tell you what results to expect.

Step 2: Vacuum – We start by using a good vacuum to get rid of dry dirt. Taking away dry dirt is a really important part of the cleaning process.

Step 3: Pre-Spray – We use a special enzyme spray to break down dirt in high-traffic areas and common spots, ensuring a more thorough cleaning.

Step 4: Pre-Spot – We use special solutions on tough spots before cleaning to improve the chances of getting rid of them.

Step 5: Extraction and Rinse – Next, we make sure to thoroughly rinse the carpet using an extremely powerful hot water extraction cleaning system. We take care not to overly wet the carpet or leave any sticky residue behind.

Step 6: Post Spot – If there are still spots or stains, we provide additional treatment using our various specialized spot-cleaning solutions. To extend your carpet's life and reduce permanent stains, consider applying a professional carpet protector.

Step 7: Post Cleaning Inspection – Our technician will go around your home with you to show you the cleaning results and make sure you are completely satisfied with the job.

Image:

COMMERCIAL CARPET CLEANING

No matter the size or type of your business, we can assist in extending the life of your carpet and maintaining its new appearance.

Our commercial carpet cleaning service employs the same patented cleaning process as our residential service. We utilize hot water extraction, pumping hot water into your carpet to release deep-seated dirt within the fibers, followed by extracting the water along with the dirt.

FREQUENTLY ASKED QUESTIONS

— DO YOU MOVE FURNITURE WHEN YOU CLEAN CARPET?

No. We understand the sentimental and monetary value your furniture holds, and our goal is to ensure its safety throughout the cleaning process. By having the furniture moved beforehand, our skilled technicians can navigate and clean your carpets with precision, reaching every corner without any disruptions. We appreciate your cooperation in making your carpet cleaning experience with us smooth, efficient, and worry-free." focus on delivering top-notch carpet cleaning without any disruptions. We appreciate your understanding and cooperation in making your experience with us efficient and hassle-free."

+ HOW LONG WILL IT TAKE TO CLEAN MY CARPETS?

+ HOW LONG DOES IT TAKE FOR MY CARPET TO DRY AFTER IT'S BEEN CLEANED?

+ HOW DO YOU CLEAN CARPETS?

+ DO YOU MOVE FURNITURE WHEN YOU CLEAN CARPET?

— HOW LONG WILL IT TAKE TO CLEAN MY CARPETS?

Typically, each room requires around 20 minutes for the carpet cleaning process. However, the duration may vary based on the level of carpet soiling and the need for spot removal treatments.

+ HOW LONG DOES IT TAKE FOR MY CARPET TO DRY AFTER IT'S BEEN CLEANED?

+ HOW DO YOU CLEAN CARPETS?

- HOW LONG DOES IT TAKE FOR MY CARPET TO DRY AFTER IT'S BEEN CLEANED?

The time it takes for your carpet to fully dry is influenced by humidity, temperature, and air circulation in the area. Drying can range from 4-12 hours, depending on these factors. To speed up the process, you can use fans in the cleaned rooms and adjust your air conditioning or heating system, depending on the season. Keep the protective blocks under furniture legs and any paper used with upholstered items until both the carpet and/or furniture are completely dry to prevent color transfer. You can walk on your carpet right after cleaning, but it's advisable to avoid wearing outdoor shoes, as they might soil the carpet. We recommend wearing clean rubber-soled shoes and being cautious when moving from damp, carpeted areas to non-carpeted ones to prevent slipping.

+ HOW DO YOU CLEAN CARPETS?

- HOW DO YOU CLEAN CARPETS?

We utilize a hot water extraction method for carpet cleaning. This involves injecting hot water into the carpet to dislodge deep-seated dirt within the fibers, followed by extracting the water along with the dirt. This method is effective in providing a thorough and deep clean for carpets.

4)- Upholstery Cleaning (PAGE 3)

FURNITURE AND UPHOLSTERY CLEANING

Upholstery has a tendency to collect **dirt, allergens, and soils**, leading to wear and a dull appearance over time. With upholstery cleaning services from Capital Carpet Solutions, your furniture can undergo a revitalization for a cleaner and improved look.

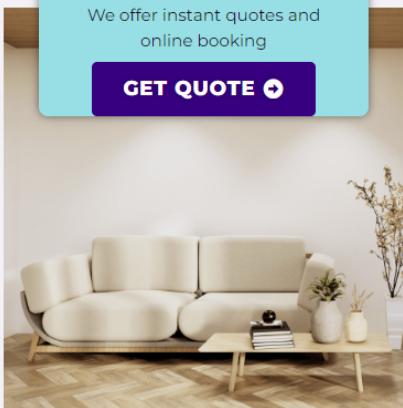

We begin by inspecting the upholstery, considering factors like fiber type, physical defects, color fastness, and staining. Following this, we apply fabric-friendly cleaners that **effectively remove maximum soil**.

If you require upholstery cleaning for items such as your sectional, sofa, ottomans, and more, we've got you covered. Whether your fabrics are linen or microfiber, our skilled technicians and advanced equipment ensure the job is done with expertise.

OUR UPHOLSTERY CLEANING PROCESS

Step 1: Inspection – Our upholstery cleaning process starts with a thorough examination by our technicians. They assess the fabric type, color, and age of the furniture to determine the most effective approach.

Step 2: Pre-Spot – Then, they will spot treat any areas on your couches, chairs, mattresses or other upholstered items that look like they need extra attention.

Step 3: Pre-Spray – We use a special enzyme spray to break down dirt in high-traffic areas and common spots, ensuring a more thorough cleaning.

Step 4: Deep Cleaning – After spot treatment, the deep cleaning phase begins. Our upholstery cleaning machine injects hot water and our cleaning solution into the furniture to release dirt deep within the upholstery. Subsequently, it extracts the water to remove the dirt.

Step 5: Post Cleaning Inspection – In the final step, we conduct an inspection of your upholstery with you to ensure your satisfaction with the cleaning results. Your upholstery will be dry within a few hours.

Image:

FREQUENTLY ASKED QUESTIONS

- HOW DOES CAPITAL CARPET SOLUTIONS CLEAN UPHOLSTERY

Whenever possible, we prefer using our powerful hot water extraction cleaning process because it offers the most thorough cleaning. However, certain fabrics may demand a more delicate cleaning approach. In such cases, we will assist you in making a decision that best aligns with your needs and the requirements of your furniture.

+ HOW LONG WILL IT TAKE TO CLEAN MY UPHOLSTERY?

+ HOW LONG DOES IT TAKE FOR MY UPHOLSTERY TO DRY?

+ HOW TO CLEAN UPHOLSTERY?

- HOW LONG WILL IT TAKE TO CLEAN MY UPHOLSTERY?

Typically, each seating position requires around 10-20 minutes. However, the duration may vary based on the level of fabric soiling and the need for spot removal treatments.

- HOW LONG DOES IT TAKE FOR MY UPHOLSTERY TO DRY?

The choice of cleaning method for your upholstery depends on the specific fabric. Drying time is influenced by both the cleaning method and the optional application of a protector, with typical dry times ranging from 2-6 hours.

— HOW TO CLEAN UPHOLSTERY?

Cleaning upholstery can differ significantly depending on the fabric. Before cleaning, make sure to check the manufacturer's cleaning instructions. Typically, the tag on upholstered furniture will have one of four different letters:

- W — You can clean this material using water.
- S — No water. You'll need to purchase a special solvent-based cleaner.
- WS — You can use water or a solvent-based cleaner on this sofa.
- X — Vacuum only.

This information will guide you in selecting the appropriate cleaning method for your upholstery.

6)- Tile & Grout Cleaning (PAGE 5)

Image:

Image:

Button: STEP TOWARDS SPOTLESS TILE & GROUT, Instant quote & Online Scheduling

Tile & grout cleaning:

Cleaning tile floors by yourself is tough and often ineffective for deep cleaning. Regular mopping misses the dirt that settles deep in your grout lines. Since grout is porous, it absorbs all the dirt, grime, and spills, causing your tiles to lose their original color.

Our professional tile and grout cleaning service uses an advanced hot water extraction method. This technique is designed to reach and remove the hidden dirt, restoring the brightness of your floors. Additionally, our process is proven to remove up to 95% of allergens from grout, contributing to a cleaner and healthier environment in your home.

Clean: "ADVANCED TILE AND GROUT CLEANING TECHNOLOGY

Image:

Our approach to tile and grout cleaning involves a sophisticated system that combines high-pressure water and vacuum technology with a specially formulated cleaning solution. This method ensures a thorough clean without leaving behind any residue.

EXPERIENCE OUR METHOD FIRST-HAND

To show you the effectiveness of our process, we provide free in-home demonstrations of our tile and grout cleaning. This way, you can witness firsthand the remarkable results before deciding to book a full cleaning.

A HEALTHIER HOME ENVIRONMENT

Our cleaning technique is more than just about aesthetics; it effectively eliminates an average of 95% of common household allergens from your tile and grout, contributing to a cleaner and healthier living space."

Seal:

Image:

"STAIN-DEFYING GROUT SOLUTION

To shield your grout lines against mishaps such as minor spills and marks, Capital Carpet Solutions uses a robust clear grout sealant. This finish adds a layer of protection, keeping your grout pristine.

BUILDING A DEFENSE AGAINST SPILLS

Like carpet, grout is porous and can easily absorb dirt and spills. Our sealant acts as a barrier, making it simpler to clean any spills on your grout before they penetrate the surface.

ENHANCE OR CHANGE YOUR GROUT'S COLOR

For tackling deep-seated, tough stains, we suggest our color sealant. It not only restores your grout to a consistent color but also includes all the protective qualities of our clear sealant. Plus, you have the option to select a brand-new color, offering a chance to completely revamp the look of your space."

Tips for grout cleaning:

Image:

"MAINTAINING YOUR TILE FLOOR'S LONG-LASTING BEAUTY

To keep your tile floor looking beautiful and to extend the life of the sealants, follow these simple care tips:

- Vacuum or sweep before mopping: This helps remove as much dry soil as possible, preventing scratches or damage during wet cleaning.
- Always rinse after mopping: This step ensures that no cleaning residue is left behind, which could otherwise attract more dirt.
- Stay away from bleach and harsh chemicals: Such cleaners can deteriorate the grout and sealants over time. Opt for gentler cleaning products to keep your floors safe and intact."

MASSIVE DISCOUNTS & OFFERS

Unlock exclusive deals and surprises! Enter your email to join our VIP list and be the first to know about special offers and promotions.

Button: email address

OUR TILE & GROUT CLEANING PROCESS:

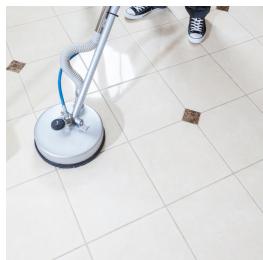

image:

Our service begins with a thorough inspection of your floor by our technicians. They assess the type of tile and check for any grout damage to determine the best cleaning approach.

1- Initial Cleaning: We start by scrubbing the grout with a pH-balanced solution, which loosens the dirt trapped in the grout pores.

2- Advanced Cleaning Equipment: Next, we employ our specialized cleaning machines designed for tile and grout. These machines apply hot water forcefully onto your tiles and grout, simultaneously extracting the dirt.

3- Final Inspection: After cleaning, we conduct a final review with you to ensure your complete satisfaction with the results.

4- Additional Services: During the appointment, you have the option to request professional cleaning for other types of flooring.

5- Quick Drying Time: Your tile and grout will be dry and ready to use within hours, minimizing any inconvenience.

This comprehensive process ensures a deep and effective clean, leaving your tile and grout looking fresh and revitalized."

Commercial tile & grout cleaning

Image:

Text: Whether it's a small room or a large commercial space, our team is equipped to thoroughly clean the tile and grout in your business, bringing them back to their pristine state.

Our approach for commercial spaces mirrors our residential service. We begin with a detailed inspection of your tile flooring to select the most effective cleaning method. Using advanced tile cleaning machines, we inject hot water into your tile and grout, effectively removing dirt and allergens while extracting them simultaneously.

Additionally, you can opt for a color seal treatment for your grout. This not only prolongs the cleanliness of your grout but also serves as a protective barrier, preventing dirt from penetrating. It's an excellent way to maintain the appearance and hygiene of your tiled areas."

FREQUENTLY ASKED QUESTIONS

HOW DO I CLEAN GROUT?

To effectively clean grout without damaging it, steer clear of harsh chemicals like bleach that can degrade sealants. The safest and most efficient method is to use a natural grout cleaner.

Here's a simple recipe we recommend:

- Mix 1/2 cup of baking soda, 1/4 cup of hydrogen peroxide, and 1 teaspoon of dish soap.
- Combine these ingredients well.
- Apply the mixture to the grout and let it sit for 10 minutes.
- Afterward, give it a good scrub and rinse it off.

This gentle yet effective approach will help keep your grout clean and preserved."

WHAT'S CAPITAL CARPET SOLUTIONS CLEANING PROCESS?

When we clean your tile and grout, we focus on each grout line and tile surface with specialized cleaners designed specifically for tile and grout. Our process involves:

Detailed Scrubbing: Each grout line and tile is thoroughly scrubbed to loosen and lift the dirt.

High-Pressure Cleaning: We use a high-pressure cleaning system connected to our truck-mounted unit. This powerful setup penetrates deep into the grout lines, effectively dislodging and removing the embedded dirt and grime.

This meticulous approach ensures a deep clean that rejuvenates your tile and grout, leaving them looking refreshed and revitalized."

"REASONS TO PROFESSIONALLY CLEAN YOUR TILE AND GROUT

Over time, similar to carpets, your tile and grout accumulate dirt, which can diminish the appearance of your tiles and lead to grout discoloration. Here's why a professional cleaning is essential:

Deep Cleaning: Regular cleaning methods can't reach the deep-down dirt that professional tile and grout cleaning can.

Restoration of Appearance: Our service restores the original shine and color of your tiles, making them look as good as new.

Longevity of Tiles and Grout: Regular professional cleaning extends the life of your tiles and grout by preventing long-term damage from dirt and grime.

In essence, professional tile and grout cleaning is not just about cleanliness; it's also about preserving and restoring the beauty and longevity of your tiled areas."

FREQUENCY OF TILE FLOOR CLEANING

The need for professional tile and grout cleaning varies, much like with carpets. Several factors play a role in determining how often this service is needed:

Foot Traffic: The amount of daily foot traffic can significantly impact how quickly your tiles and grout become dirty.

Presence of Children and Pets: Homes with children and pets may require more frequent cleanings due to additional spills and debris.

Regular Maintenance: How often and how well you maintain your tile floors also affects the frequency of professional cleanings.

Considering these factors, a general guideline is to have your tile and grout professionally cleaned once a year. However, in high-traffic areas or homes with pets and children, you might consider more frequent cleanings for optimal maintenance and hygiene."

RESTORE THE BEAUTY OF YOUR WOOD FLOORS

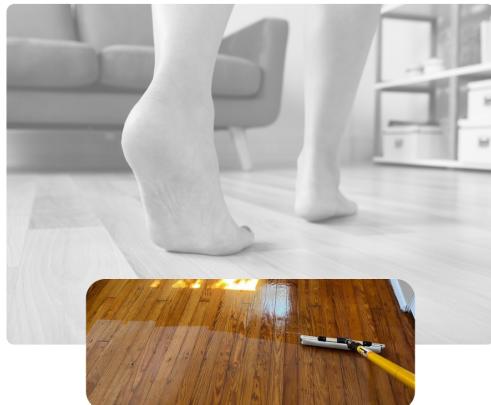

Image:

TEXT:

"Bring new life to your hardwood floors with our services! We do everything from a basic clean and buff to getting rid of old wax, and even recoating your floor. Our deep cleaning gets rid of scratches and stains, making your floors look bright and new again. We take away years of dullness, revealing the floor's innate glow, and then seal its beauty with a finish that guards against future wear and tear.

BUTTON: LEARN MORE ABOUT HARDWOOD FLOOR REFINISHING

7)-Hardwood Floor Refinishing (PAGE 6)

Image:

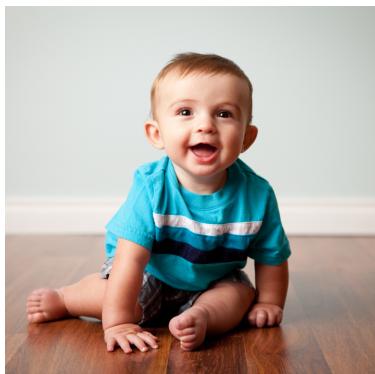

Image:

Button: [STEP TOWARDS SPOTLESS HARDWOOD FLOORS, Instant quote & Online Scheduling](#)

HARDWOOD FLOOR REFINISHING

High-quality hardwood floors are not just floors; they're a long-term investment adding warmth and elegance to your home. To maintain their splendor and protect them from daily wear and tear, regular care is essential.

When your hardwood floors need expert attention, turn to the professionals at Capital Carpet Solutions. Our team of hardwood floor specialists boasts extensive experience in refinishing and revitalizing hardwood floors, ensuring they look as stunning as ever. By choosing us, you're entrusting your floors to a leading company renowned for its exceptional service and commitment to complete customer satisfaction. Let us bring the best out of your home's hardwood floors!"

CLEANING & BUFFING | SCREENING & RECOATING | WAX REMOVAL

CLEANING & BUFFING

"BRING BACK YOUR HARDWOOD FLOORS' SHINE

Everyone wants their hardwood floors to look shiny and new every day. But with years of use, they often collect dirt and grime, making them dull. If your floors have light scratches and the wood and finish are still in good shape, our cleaning and buffing service is just what you need to rejuvenate them.

Our hardwood floor cleaning and buffing is gentle and uses the right tools to lift away dirt, making your floors shine like new again. We're thorough, so your floors will look great fast. We'd be happy to visit and check out your floors to see how we can help."

SCREENING & RECOATING

RESTORE YOUR HARDWOOD FLOORS WITHOUT SANDING

If your hardwood floors have minor surface scratches and have lost their shine, our 'screen and recoat' service might be just what you need. This service is ideal for floors with light, surface-level scratches, where the top finish is wearing thin. However, it's important to note that this service doesn't fix scratches that are deep in the wood.

Our 'sandless refinishing' is a great option when full floor sanding isn't needed. The recoating adds two protective layers of commercial-grade polyurethane, making your floors more durable and giving them a beautiful sheen that can last 3 to 5 years, depending on floor traffic and lifestyle. You can choose from satin, semi-gloss, or high gloss finishes. Not sure how deep your floor's scratches are? No problem! Give us a call, and we'd be glad to assess your floors and discuss options to make them look fantastic again.

WAX REMOVAL

"REMOVE WAX BUILDUP AND REVIVE YOUR WOOD FLOORS

If you're looking to get rid of wax buildup and bring back the natural beauty of your hardwood floors, our wood floor wax removal service is ideal. Over time, wax, oil, and acrylic-based cleaners from the store can make your floors look darker and less appealing. These products often leave a heavy residue that attracts dirt, grime, and

bacteria, leading to a darkened appearance and making your floors more prone to scratches and stains.

At Capital Carpet Solutions, we provide an effective solution to this issue. Our service not only removes the wax but also gives your floors a deep clean. For floors with years of accumulated wax and residue, we recommend following up with a screen and recoat service. This is important as intensive wax removal can sometimes leave the floors looking cloudy and dull. We understand the value of your floors to your home's overall appeal and are committed to restoring their original beauty.

COMMERCIAL HARDWOOD & VCT FLOOR CLEANING

At Stanley Steemer, we understand the importance of maintaining a clean and healthy environment for your business, both for guests and employees. Regular vacuuming and mopping of hard surface floors can leave behind dirt and debris, as mopping often just moves the dirt around without actually removing it. Our professional floor cleaning service tackles this issue head-on.

For hardwood floors, we utilize our advanced hardwood floor auto scrubber for deep cleaning. This ensures that even the most stubborn embedded dirt is extracted. Following the scrubbing, we use a microfiber mop and fan to dry the area thoroughly, allowing the floors to be used immediately without risk of water damage. Additionally, for VCT floors, we offer expert stripping and waxing services, restoring them to a like-new finish. Trust us to keep your commercial floors spotless and inviting."

COMMERCIAL CARPET CLEANING

"COMPREHENSIVE COMMERCIAL CARPET CLEANING SERVICES

Our commercial carpet cleaning is designed to be thorough and effective. We offer a range of services to meet all your carpet care needs, including interim carpet cleaning, carpet deodorizing, carpet protection, and targeted spot cleaning. These services ensure your carpets are not just clean but also maintain a fresh and inviting appearance.

CLEANING FOR BUSINESSES OF ALL SIZES

Whether your business is large or small, we are equipped and ready to provide top-notch carpet cleaning services. As a leader in commercial carpet cleaning, we are committed to being your reliable partner in maintaining a clean and professional environment.

FAST DRYING FOR MINIMAL DISRUPTION

Utilizing the hot water extraction method, our carpet cleaning service significantly reduces drying time. This efficient process means your business operations can resume

quickly, minimizing any disruption to your daily activities and ensuring your carpets stay cleaner for longer."

Image:

Commercial Tile Cleaning

"EFFICIENT YET DELICATE TILE AND GROUT CLEANING

With Capital Carpet Solutions, experience a tile and grout cleaning process that's both gentle on your floors and tough on dirt. Our method effectively cleanses your tiles and grout, removing deeply embedded dirt. Trust in the efficiency of Stanley Steemer tile cleaning to rejuvenate your tiled surfaces.

EXTEND THE LIFE OF YOUR TILED FLOORS

Our quick and effective cleaning process not only cleans but also revitalizes your tiles, saving you from the costly option of total replacement. We focus on restoring the original beauty of your tiled floors, adding protection to extend their lifespan.

THOROUGH CLEANING FOR TILE AND GROUT

Tiles and other hard surfaces are increasingly popular in various settings. The Stanley Steemer tile cleaning method is designed to penetrate deep into the grout pores, extracting dirt and leaving your tile floors looking as good as new."

Image:

COMMERCIAL UPHOLSTERY CLEANING

"EXTEND THE LIFE OF YOUR FURNITURE WITH DEEP CLEANING

Our advanced hot-water extraction process for furniture cleaning does more than just create a cleaner and healthier workplace; it also safeguards your investment. Avoid the costs associated with reupholstering or purchasing new furniture. Our efficient cleaning service delivers exceptional results, saving you money while revitalizing your existing furniture.

ENHANCE AIR QUALITY BY ELIMINATING ALLERGENS

Capital Carpet Solutions' professional furniture cleaning service is key to maintaining a healthy work environment. It effectively removes dirt, dust, and other pollutants that accumulate in the fabric and crevices of your office furniture, thereby improving the air quality within your office space.

PRIORITIZE COMMERCIAL FURNITURE CLEANING

In any workplace, employees and visitors are in constant contact with various surfaces throughout the day, with furniture and office partitions being among the most used. Therefore, regular commercial furniture cleaning is essential to ensure a clean, healthy, and professional environment."

Image:

COMMERCIAL HARDWOOD REFINISHING

REVITALIZE YOUR HARDWOOD FLOORS WITH OUR DEEP CLEANING SERVICE

Our deep cleaning process for hardwood floors goes beyond what the eye can see. It targets and removes hidden dirt and grime that often settles in the crevices of your floors. While regular mopping by your cleaning crew might seem sufficient, it often just redistributes the dirt. Stanley Steemer's hardwood floor service is designed to safely and effectively eliminate even the toughest dirt and residue, leaving your floors pristine and refreshed.

ENSURE THE LONGEVITY OF YOUR HARDWOOD FLOORS

Hardwood floors in business environments endure a lot of foot traffic, leading to wear and dullness over time. Maintaining not just the appearance but also the condition of your floors is crucial, especially considering the investment they represent. Regular professional cleaning not only enhances their look but also helps protect them against long-term damage and deterioration."

FREQUENTLY ASKED QUESTIONS:

What is commercial cleaning

Commercial cleaning refers to the specialized deep cleaning services tailored for businesses and organizations. Our services cater to a diverse range of industries, cleaning various types of spaces including office buildings, retail environments, hotels, schools, and more. Our comprehensive service offerings extend beyond carpet cleaning; we also specialize in hardwood floor cleaning, upholstery cleaning, tile and grout cleaning, as well as air duct cleaning. These services are designed to meet the unique cleaning needs of each commercial space, ensuring a clean, healthy, and welcoming environment for both employees and customers."

Besides carpet cleaning, what other services are provided?

In addition to our expert carpet cleaning services, Capital Carpet Solutions provides a wide range of commercial cleaning options to meet various needs. Our services include:

Tile and Grout Cleaning: Ensuring your tiled surfaces are spotless and hygienic.

Upholstery Cleaning: Refreshing and revitalizing furniture fabrics.

Hardwood Floor Cleaning: Preserving the natural beauty of your wooden floors.

VCT Stripping and Waxing: Restoring the shine and protecting Vinyl Composite Tile flooring.

Area Rug Cleaning: Careful cleaning of area rugs to maintain their appearance and longevity.

LVT Cleaning: Specialized cleaning for Luxury Vinyl Tile to keep it looking its best.

These comprehensive services are designed to cover all aspects of commercial cleaning, ensuring a clean, well-maintained, and inviting space for your business."

After cleaning, how quickly can the carpet be used again?

After a professional carpet cleaning, your carpet is ready for light foot traffic right away. This means you can walk on it immediately after the cleaning, ensuring minimal disruption to your daily routine or business operations."

Is it possible to arrange a routine cleaning schedule for our company?

Absolutely! Our deep cleaning maintenance program is specifically designed to align with your unique scheduling needs, offering routine cleaning and disinfecting services. To complement your annual comprehensive facility cleaning, we offer flexible recurring services. These can be scheduled weekly, monthly, or quarterly, focusing especially on high-traffic areas like hallways and walkways that experience more wear and tear.

This proactive approach ensures consistently clean and healthy environments, ideal for places with frequent customer and guest visits such as hotels, event centers, and daycares. Our program is adaptable to a wide range of industries, providing both convenience and effectiveness.

Interested in setting up a tailored cleaning plan for your business? Call us at (819)-593-7109 to speak with a commercial specialist. We'll arrange a free commercial cleaning estimate and walk you through our maintenance program options during an on-site visit, helping you find the perfect cleaning solution for your needs."

What are the advantages of using a carpet protector?"

Using a carpet and upholstery protector offers significant benefits, particularly in high-traffic business environments. The protector acts as a shield, taking on the brunt of spills and general wear and tear, which would otherwise directly affect the fibers of the material. In busy areas of your business, this means that instead of foot traffic gradually wearing down your carpet fibers, it's the protector that endures the wear. This effectively extends the life of your carpet, maintaining its appearance and integrity for a longer period. It's an excellent investment for preserving the quality and look of your business's carpets and upholstery."

9)- CAR, BOAT & RV Cleaning (PAGE 8)

Image:

Image:

Button: STEP TOWARDS A SPOTLESS CAR, BOAT OR RV

CAR, BOAT & RV CLEANING

Our reputation may have been established on top-notch carpet cleaning, but our expertise doesn't end there. We've extended our high-quality cleaning services to include cars, boats, and RVs as well. Utilizing the same state-of-the-art solutions and equipment that made us a trusted name in carpet cleaning, we deliver equally impressive results for your vehicles. This commitment to excellence helps you protect and maintain the value of your investments.

Ready to get your car, boat, or RV looking its best? Call us at (819)-593-7109 to schedule your cleaning appointment. Once you've booked a time, our team will come to your location to expertly clean your vehicle, providing convenience and superior service."

PROFESSIONAL CAR CLEANING

IMAGE:

"CAR UPHOLSTERY CLEANING: REVITALIZING YOUR VEHICLE'S INTERIOR

Your car's upholstery, including seats and carpets, endures significant wear and tear from regular use, such as carpools and road trips. Here's how we ensure your car gets the best possible upholstery cleaning:

Detailed Inspection: We start with a thorough examination of your car's upholstery to determine the most effective cleaning method.

Vacuuming: We meticulously vacuum every nook and cranny of your car to remove all dirt, ensuring no spot is missed.

Eco-Friendly Cleaning: Next, we use an environmentally friendly cleaning solution to extract dirt and allergens, prioritizing both cleanliness and sustainability.

Convenient Service: Once you schedule an appointment, we bring our top-notch car upholstery cleaning service directly to you.

This comprehensive process not only cleans but also rejuvenates your car's interior, offering you the best in convenience and quality."

PROFESSIONAL BOAT CLEANING

Image:

The interior of a boat faces unique challenges, including potential damage from sun exposure, water, and prolonged periods of inactivity during the off-season. This makes professional boat upholstery cleaning not just beneficial but essential. Boat interiors often feature materials like acrylic, polyester, olefin, and vinyl, which are resistant to water and sun but can be tricky to clean properly.

Understanding these materials and their vulnerabilities, such as susceptibility to sun damage, bleaching, and color loss, is crucial. Professional cleaning services are adept at identifying and treating these specific fabrics, ensuring they're cleaned effectively without causing damage. To maintain the longevity and appearance of your boat's interior, we recommend having it professionally cleaned at the end of each boating season. This proactive approach helps in preserving the quality and extending the life of your boat's upholstery."

PROFESSIONAL RV CLEANING

Image:

"COMPLETE RV CLEANING SOLUTIONS AT CAPITAL CARPET SOLUTIONS

If you need both RV upholstery and carpet cleaning, look no further than Capital Carpet Solutions. We understand that RVs often feature a mix of flooring and upholstery materials, which is why we offer comprehensive cleaning services to cater to all your RV's needs. Our expertise extends to removing stains and discoloration from various surfaces including carpet, hardwood, stone, and tile and grout. We're also skilled in handling sun and water-resistant fabrics.

For common RV issues like color loss, mold, or mildew, our team is equipped to use the appropriate level of cleaning solutions, whether they need to be more or less aggressive. This tailored approach ensures that your RV's interior is not just clean but also cared for properly, preserving its appearance and extending its life."

Our Family: Meet The Capital Carpet Solutions Team

Our family-owned and operated business, Capital Carpet Solutions, uses state-of-the-art technology to provide higher quality cleaning services than ever before.

Our team takes a great deal of pride in every job. We do business with more ethics and honesty than you've ever experienced.

Whether it's residential or commercial cleaning services you need, look no further than the company that has earned the title of Ontario's most trusted cleaning company.

11)- FAQS (PAGE 10)

Carpet cleaning

"I just had my carpet cleaned, and now there are bubbles or ripples in it. What might have caused this?"

"As your carpet dries, you should see any bubbles or ripples begin to flatten out. When it's fully dry, these should be almost invisible. Usually, this means the carpet needed stretching before it was cleaned. If you still notice ripples after the carpet has dried, please call us at (819)-593-7109

"Can you guarantee that all spots or stains will be removed from the carpet?"

"We can't promise to remove every spot or stain from the carpet. Some substances can permanently change the color of the carpet fibers. Also, the carpet's age and the type of fibers it's made of can affect stain removal. Our technician will try to figure out if permanent staining is likely before starting the cleaning, but sometimes this can only be determined during the spot removal process."

"HOW LONG DOES CARPET CLEANING TAKE?

Typically, cleaning a room's carpet takes about 20 minutes on average. However, this time can change quite a bit based on several factors like the amount of furniture that needs moving, the level of dirtiness of the carpet, and if there are any spots that need special treatment."

"DOES CLEANING MY CARPET CAUSE IT TO BECOME DIRTY QUICKER?

The idea that carpets get dirty faster after cleaning usually comes from the issue of residue left in the carpet, which can attract more dirt. Often, this happens when soap used in the cleaning process isn't fully rinsed out. However, with our cleaning method, which involves a specially formulated solution and hot water extraction, we ensure minimal to no residue is left behind, reducing the likelihood of rapid resoiling."

Do you move furniture prior to cleaning?

At our company, we have a specific policy regarding furniture moving during carpet cleaning. We understand that moving furniture can seem like a natural part of the cleaning process; however, for various reasons, including liability, safety, and efficiency, we do not move furniture as part of our service. This approach helps us focus solely on providing the most effective and thorough carpet cleaning. It also minimizes the risk of potential damage to your furniture or property and ensures the safety of our technicians. We recommend that any furniture you want moved be relocated prior to our arrival, allowing us to access and clean your carpets without any impediments, and ensuring a more efficient cleaning process."

"SHOULD I VACUUM BEFORE THE CARPET CLEANING?"

It's a good idea to do light vacuuming in the high-traffic areas before we arrive for carpet cleaning, but it's not mandatory. If you haven't had the chance to vacuum, don't worry – our crew can pre-vacuum the area that needs to be cleaned. Additionally, our cleaning equipment continuously vacuums while we clean, ensuring thorough removal of dirt and debris from your carpet."

"WHAT IS YOUR CARPET CLEANING METHOD?"

We use the truck mount hot water extraction method for carpet cleaning, also known as steam cleaning. This method is highly effective and gentle, making it safe for your carpets. It involves injecting hot, soft water mixed with a specially formulated cleaning solution deep into the carpet fibers. Then, using powerful suction, we remove deep-down dirt, allergens, the cleaning solution, and about 95% of the moisture. This method is not only thorough in cleaning but also in ensuring quick drying. It's the preferred cleaning technique recommended by most carpet manufacturers due to its effectiveness and care for the carpet fibers."

"HOW WE ENSURE CUSTOMER SATISFACTION IN CARPET CLEANING"

Our commitment to customer satisfaction is paramount in our carpet cleaning service. If any issues arise, we are ready to work closely with you to resolve them. This may involve spot cleaning particular areas that you're concerned about or, if necessary, re-cleaning the entire area. Our goal is to ensure that you are completely satisfied with the outcome. We encourage you to reach out to us at (819)-593-7109 with any concerns or if you're not satisfied with the cleaning results. Your satisfaction is our top priority, and we're dedicated to addressing and resolving any issues to meet your expectations."

"WHY DO YOUR PRICES VARY FROM OTHER CARPET CLEANERS?"

Our pricing may differ from other carpet cleaning services, and it's important to consider several key factors when making comparisons. Firstly, our price is all-inclusive. This means it covers spot treatment, guarantees a quick 1-3 hour drying time, and is backed

by our 100% satisfaction policy. We assure you there are no hidden fees or surprise additional charges.

Furthermore, unlike some services, we do not use subcontractors. All of our technicians are direct employees of Capital Carpet Solutions. They have been thoroughly background checked, drug tested, and are properly trained, ensuring high-quality and reliable service. This comprehensive approach and our commitment to our employees allow us to fully stand behind our work and offer a service that we believe is worth the investment."

HOW LONG WILL IT TAKE FOR MY CARPET TO DRY?

The drying time for your carpet after cleaning depends on several factors, including humidity, temperature, and airflow in the cleaned area. Typically, it can take between 1 to 3 hours for your carpet to dry completely. However, this can vary based on the conditions mentioned.

To speed up the drying process, you can use fans in the cleaned rooms and adjust your air conditioning or heating system, depending on the season. It's important to keep the protective blocks under furniture legs and any paper under upholstered items until the carpet is fully dry. This prevents any color transfer.

While you can walk on your carpet right after cleaning, it's best to avoid wearing street shoes to prevent re-soiling. Clean rubber-soled shoes are a good alternative. Also, be cautious when moving from damp carpeted areas to non-carpeted ones, as there's a risk of slipping."

Carpet Protector

WHAT ARE THE BENEFITS OF APPLYING A PROTECTOR TO MY CLEANED CARPETS?

After your carpet and/or upholstery is thoroughly cleaned, applying a specially formulated protector is a wise choice. This protector acts as a barrier, making your carpet and upholstery more resistant to soiling from both dry dirt and spills, whether they're water- or oil-based. It works by coating each fiber with a protective layer. This not only prolongs the time you have to clean up any spills before they penetrate the fibers but also helps maintain the appearance of your carpet and upholstery between professional cleanings. Additionally, this coating simplifies the process of vacuuming and spot cleaning."

"HOW EFFECTIVE IS YOUR DEODORIZER IN ELIMINATING ODORS?

Our deodorizer is specifically designed to target and eliminate organic odors, such as those from vomit, feces, urine, milk, and blood. It works by breaking down the organic matter causing the odor. Alongside this, it includes a neutralizer that provides immediate odor relief while the enzyme does its job. For the deodorizer to be fully effective, it's crucial that it reaches all areas affected by the odor. However, if the source of the odor has penetrated deep into the carpet backing or the padding, we may not be able to guarantee the complete removal of the odor."

"IS CARPET MANUFACTURED WITH A PROTECTOR?

Most carpets come from the manufacturer with a dry soil protector already applied. This protector is subject to wear and tends to diminish over time due to regular foot traffic. Carpet manufacturers typically advise having this protector reapplied annually, or possibly more frequently in areas of heavy traffic."

TILE & GROUT CLEANING

HOW DO YOU CLEAN MY TILE AND GROUT? To clean your tile and grout, we specifically scrub each grout line and tile with cleaners designed for these surfaces. We utilize high pressure, connected to a truck-mounted unit, to effectively remove dirt and grime embedded in your grout lines.

DO I HAVE TO USE SPECIAL FLOOR CLEANER IF I HAVE THE SEALANT APPLIED? After applying a sealant, it's recommended to use a neutral cleaner on your tile and grout. This helps maintain the sealant's effectiveness. Avoiding bleach and other harsh chemical cleaners is also advised, as they can degrade the sealant.

WHY SHOULD I HAVE MY GROUT LINES SEALED?

Sealing grout lines is important because, like carpet, grout is porous and absorbs spills and soil. A sealant forms a protective barrier, allowing more time for cleanup and preventing spills from soaking into the grout. The type of sealant you choose will affect its stain resistance.

HOW LONG DO I HAVE TO STAY OFF THE FLOOR AFTER SEALANT HAS BEEN APPLIED?

We advise waiting 30 minutes before walking on the floor after sealant application, to let it dry. The sealant takes about 24 hours to cure completely, so it's best to avoid any liquid contact during this period.

HOW OFTEN SHOULD I HAVE MY TILE FLOOR CLEANED?

The frequency of cleaning your tile and grout depends on factors such as foot traffic, the presence of children and pets, and your usual floor maintenance routine.

WHY SHOULD I HAVE MY TILE AND GROUT CLEANED?

Over time, dirt accumulates on tile and grout, leading to a dull appearance and discoloration. Professional cleaning is the most effective way to remove this deeply embedded dirt."

HARDWOOD REFINISHING

WHAT IS THE PURPOSE OF A SCREEN AND RECOAT?

Screen and reboots are utilized to rejuvenate hardwood floors by eliminating light scratches and blemishes. We gently abrade the floor using a buffer, which prepares the surface for a fresh coat of polyurethane. This not only restores the shine to dull floors but also provides additional protection against scratches.

WHAT ARE THE BENEFITS OF A SCREEN AND RECOAT?

Screen and reboots offer significant advantages, including prolonging the use of hardwood floors without the need for complete sanding and refinishing. This not only saves money but also preserves the wood, as each refinishing process removes a layer of wood. This technique allows for changes in the floor's sheen, from glossy to matte, for example, revitalizing the appearance of the floor. It's a one-day process, far less costly and disruptive than a full sanding and refinishing.

WHAT ARE THE LIMITATIONS OF A SCREEN AND RECOAT?

The screen and recoat process only targets the top finish layer, meaning it won't fix deep gouges or change the wood's color. For floors requiring extensive repair or a color change, sanding and finishing are the most effective methods. Note that this process is not suitable for floors finished with hard wax oil, only working on polyurethane-finished floors.

CAN SCREEN AND RECOATS BE APPLIED ON PREFINISHED HARDWOOD FLOORS?

Previously, prefinished hardwood floors couldn't undergo screening and recoating. However, recent technological advancements now allow for the screening and recoating of these types of floors.

HOW FREQUENTLY SHOULD A SCREEN AND RECOAT BE DONE ON POLYURETHANE FINISHED FLOORS?

For maintaining the finish and appearance of polyurethane-finished hardwood floors, we recommend a screen and recoat every 3 to 5 years. This frequency helps in preserving the floors' look without allowing excessive wear."

UPHOLSTERY CLEANING

HOW DOES PROFESSIONAL UPHOLSTERY CLEANING AFFECT THE PROTECTIVE COATING ON MY FURNITURE?

Does professional upholstery cleaning impact the protective coating I have on my upholstered furniture? While the cleaning process can affect the coating, it's important to note that the accumulation of dry soils and everyday use typically leads to the deterioration of this protective layer. To ensure your valuable upholstered furniture remains shielded from the damage caused by dry soil, we offer the service of re-applying this protective coating after the cleaning."

WHAT IS THE EXPECTED DRYING TIME FOR MY FURNITURE POST-CLEANING?

How long will it take for my furniture to dry after it's been professionally cleaned? The drying time largely depends on the specific upholstery fabric and the cleaning method used. Typically, drying time ranges from 1 to 2 hours, which may vary if a protective coating is applied during the cleaning process.

WHAT IS YOUR PROCESS FOR CLEANING UPHOLSTERY?

We primarily utilize the hot water extraction cleaning method, as it offers the deepest clean among various techniques. However, certain fabrics might need a gentler approach. In such cases, we will discuss with you the most suitable cleaning method for your specific upholstery needs.

HOW OFTEN SHOULD UPHOLSTERY BE PROFESSIONALLY CLEANED, ACCORDING TO MANUFACTURERS?

Manufacturers generally recommend professional upholstery cleaning every 12 to 24 months, but this can depend on how frequently the furniture is used."

AREA RUG CLEANING

WHO CLEANS AREA RUGS?

Who is responsible for cleaning area rugs at Capital Carpet Solutions? We are proud to offer top-notch area rug cleaning services. We use our trusted proprietary hot-water extraction method, which has been effective in carpet cleaning for years, to deeply clean area rugs. This method efficiently extracts dirt and allergens from the rug fibers, ensuring a cleaner home environment.

HOW MUCH IS ORIENTAL RUG CLEANING?

What is the cost of cleaning an oriental rug? The price for cleaning an oriental rug varies based on the rug's size. For a specific quote on oriental rug cleaning, please call us at (819)-593-7109.

WHAT METHOD DO YOU USE TO CLEAN AREA RUGS?

How do you approach cleaning area rugs? We clean area rugs using steam cleaning, specifically the hot-water extraction method, similar to our carpet cleaning process. This technique thoroughly extracts dirt and allergens from deep within your rug's fibers, effectively removing them from your home.

WHAT IS THE COST OF CLEANING AN AREA RUG?

How is the cost for area rug cleaning determined? The price for cleaning an area rug depends on the rug's size and material. For an accurate quote, you can visit our website or call us at (819)-593-7109 for more information."

COMMERCIAL CLEANING

IS A CARPET PROTECTOR USEFUL?

Does applying a carpet protector offer benefits? Yes, carpet and upholstery protectors guard against spill and wear damage, sparing the carpet fibers. Especially in high traffic areas of a business, using a carpet protector is advantageous as it bears the brunt of wear, thereby prolonging your carpet's lifespan.

HOW FREQUENTLY SHOULD CARPETS BE CLEANED?

How often is carpet cleaning needed for businesses? Cleaning frequency varies by business type and is influenced by state laws and specific business needs, such as allergen build-up and foot traffic. For an exact cleaning frequency, please contact us at (819)-593-7109.

DOES THE CLEANING PROCESS LEAVE ANY RESIDUE?

Does your cleaning method result in any residue left on carpets? No, our hot water extraction process effectively removes dirt and odors without leaving residue.

CAN THE CLEANING BE CONDUCTED WHILE PEOPLE ARE PRESENT?

Is it possible for people to be in the area during the cleaning process? Yes, while our trucks generate some noise outside, it shouldn't significantly disrupt indoor activities. We also allow for foot traffic in the areas being cleaned, with proper cautionary signs in place.

CAN CLEANING BE DONE OVER THE WEEKEND?

Is weekend cleaning available for businesses? Yes, for weekend commercial cleaning requests, please call (819)-593-7109.

HOW QUICKLY CAN THE CARPET BE USED POST-CLEANING?

When is it safe to walk on carpets after cleaning? The carpets can be used for light traffic immediately after cleaning.

IS AFTER-HOURS CLEANING AVAILABLE?

Can cleaning be scheduled outside of business hours? Yes, after-hours cleaning is available with a 3-5 day notice. For special requests, contact us at (819)-593-7109.

WHAT PAYMENT METHODS ARE ACCEPTED?

How can payment be made for commercial cleaning services? We accept cash, check, or credit for first-time commercial clients, and offer invoicing for established customers.

WHAT OTHER CLEANING SERVICES ARE OFFERED?

Besides carpet cleaning, what additional services do you provide? We offer a range of commercial cleaning services including tile and grout cleaning, upholstery cleaning, hardwood floor cleaning, VCT stripping and waxing, area rug cleaning, and LVT cleaning.

CAN A REGULAR CLEANING SCHEDULE BE ARRANGED?

Is it possible to set up a routine cleaning schedule for our company? Absolutely! Our maintenance program offers regular cleaning and disinfecting services tailored to your schedule, including weekly, monthly, or quarterly services to address areas most affected by wear and tear.

ARE ANY HARMFUL CHEMICALS USED IN CLEANING?

Do your cleaning services involve harmful chemicals? No, our cleaning methods are eco-friendly and safe for employees, pets, children, and the environment.

HOW SOON CAN A CLEANING ESTIMATE BE SCHEDULED?

When can I schedule a cleaning estimate for my business? You can arrange an estimate at your convenience by calling (819)-593-7109.

WHAT IS THE DURATION OF THE CLEANING PROCESS?

How long does it take to clean a business space? On average, we clean about 1,100 sq. ft. per hour, but the total time varies depending on the specific cleaning tasks. This is assessed during our on-site estimate.

IS THERE A MINIMUM CHARGE FOR COMMERCIAL CLEANING?

Is there a minimum fee for commercial cleaning services? Yes, the minimum trip charge is based on the proximity of your location."

Do you move furniture prior to cleaning?

At our company, we have a specific policy regarding furniture moving during carpet cleaning. We understand that moving furniture can seem like a natural part of the cleaning process; however, for various reasons, including liability, safety, and efficiency, we do not move furniture as part of our service. This approach helps us focus solely on providing the most effective and thorough carpet cleaning. It also minimizes the risk of potential damage to your furniture or property and ensures the safety of our technicians. We recommend that any furniture you want moved be relocated prior to our arrival, allowing us to access and clean your carpets without any impediments, and ensuring a more efficient cleaning process."

CAR, BOAT & RV CLEANING

What is Vehicle Cleaning?

Vehicle cleaning is a specialized process aimed at maintaining your car's appearance to a near-showroom condition. Our goal is to restore your car's appearance to its original state when you first drove it off the lot.

How Frequently Should I Clean My Car?

Consider cleaning your car whenever you have an oil change or at least twice a year to promote optimal car health. The frequency of cleaning depends on your car's wear and

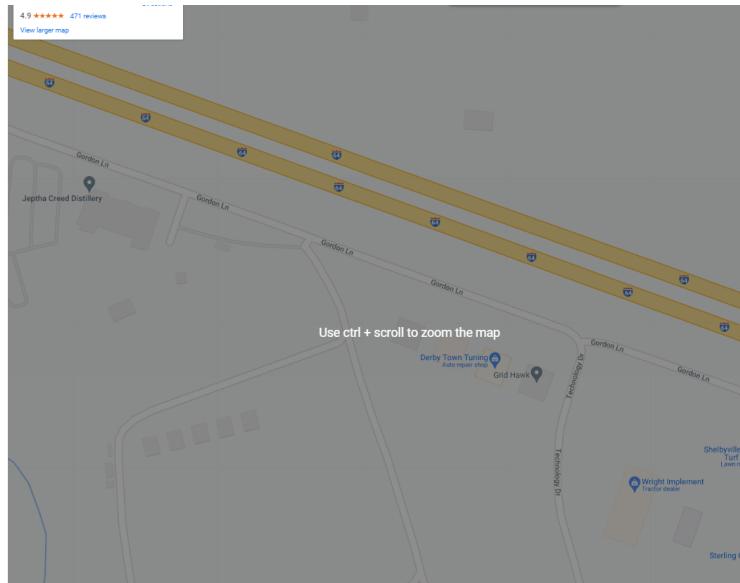

tear and your desired level of appearance. Vehicle cleaning enhances your car's resale value, appearance, and extends its overall lifespan."
